DETAILED ACTION

1. Claims 18-20 and 22 are currently pending in the instant application.

Previous Claim Rejections - 35 USC § 112

2. Claims 1-17 previously rejected under 35 U.S.C. 112, first paragraph, as not being fully enabled.
3. Applicants have cancelled claims 1-17, therefore the rejections are moot and are withdrawn.
4. Claims 21 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claims 21 previously rejected as being indefinite for reciting “at least one known cancer chemotherapeutic agent.” Applicants have cancelled claim 21, therefore the rejection is withdrawn.

Claim Objections

6. Claim 22 previously objected to for containing printing errors. Applicants have amended the seventh line of the claim, therefore the objections have been overcome and are withdrawn.

EXAMINER’S AMENDMENT

7. An examiner’s amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephanie L. Elmer, Reg. No. 59,244, on September 11, 2009.

The application has been amended as follows:

- (a) Claim 22: Line 9, please delete the term, "Herceptin®" and replace with the term, "trastuzumab".
- (b) Claim 22: Line 9, please delete the term, "Rituxan®" and replace with the term, "rituximab".
- (c) Claim 22: Line 15, please delete the term "Gleevec®" and replace with the term, "imatinib".

REASONS for ALLOWANCE

8. In view of Applicants' cancellations and amendatory changes, claims 18-20 and 22 are in condition for allowance, newly renumbered as claims 1-4. The following is an examiner's statement of reasons for allowance: This invention relates to novel gambogamide derivatives and their pharmaceutical compositions. The allowable compounds are limited to compounds according to claims 18 and 19. Certain analogs of gambogic acid are known in the art as having pharmaceutical activity, however the aspect of preparing the instant claimed gambogamide derivatives, with apoptosis-inducing activity, is novel and unobvious. After a thorough search, the closest of prior art, U.S. Pat. No. 6,462,041 to Cai, Sui, et al. was found to teach similar gambogic acid compounds. However the '041 patent fails to teach or render obvious the instant claimed gambogamide compounds, and does not fairly suggest methods their pharmaceutical compositions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
